

Voters' Health Care Priorities

Survey of Michigan Likely Voters

Michigan Voters Say Fixing Health Care Is a Top Priority

- Michigan voters say health care is one of the top-two issues informing their vote this November.
- About 9 in 10 say improving health care should be a “top” or “major” priority for elected officials and they want them to do more to improve health care.
- Michigan voters desire lower health fees and want their out-of-pocket costs to be more predictable.
- They want politicians and the private sector industry leaders to focus on policy reforms that make the health care system more affordable and the cost more transparent to consumers.

Voters want health care to be a priority

How much improving health care...
...is **a current** priority to your elected representatives

...**should be** a priority to your officials

■ Top priority ■ Major priority ■ Low/No priority

The most important issues on voters' minds
