

# NEVADA STATEWIDE POLL ON HEALTH CARE QUALITY, ACCESS AND AFFORDABILITY

*Key Findings*

AUGUST 2021

## INTRODUCTION

Before the pandemic, Consumers for Quality Care (CQC) research showed that Americans were more concerned with health care costs than costs related to retirement, housing, childcare and higher education. The pandemic put even more stress on our nation's health care infrastructure and exposed serious flaws in the system for patients; at the center of the issue is how much Americans are paying for care.

Recent research conducted by ALG Research and The Mellman Group, conducted on behalf of Consumers for Quality Care, shows voters in Nevada and across the U.S. want elected officials to get those costs down, so that they can feel confident that they have access to the quality health care they want, when they need it.

## SURVEY RESULTS

Voters in ALG Research and The Mellman Group's recent Nevada poll see affordability as a major issue in the state's health care system. While voters generally believe the health care system is meeting their needs and are wary of making fundamental changes to it, especially as we continue to recover from the COVID-19 pandemic, it's clear out-of-pocket costs are having a serious impact. As a result, voters – even those with insurance – are struggling to afford quality care and are racking up medical debt as costs continue to climb.

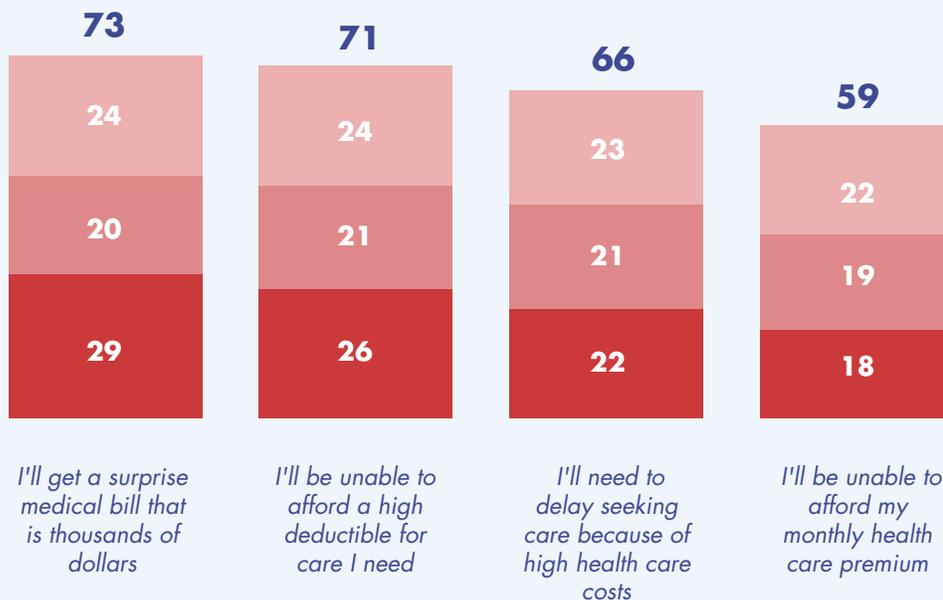

**THE OUT-OF-POCKET COSTS THAT BOTHER PEOPLE MOST: SURPRISE BILLS, HIGH DEDUCTIBLES, AND DELAYING SEEKING CARE BECAUSE OF HIGH HEALTH CARE COSTS.**

Majorities are concerned about getting a surprise bill (73% concerned), being unable to afford a high deductible (71%), delaying care because of high health care costs (66%), or being unable to afford the monthly premium (59%). When it comes to reducing the costs of health care, Nevada voters would most like to see ensuring pre-existing conditions are covered (19%), lower premiums (18%), and lower prescription medication costs (14%).

**HOW CONCERNED ARE YOU WITH EACH OF THE FOLLOWING?**

■ *Extremely concerned*    
 ■ *Very concerned*    
 ■ *Somewhat concerned*

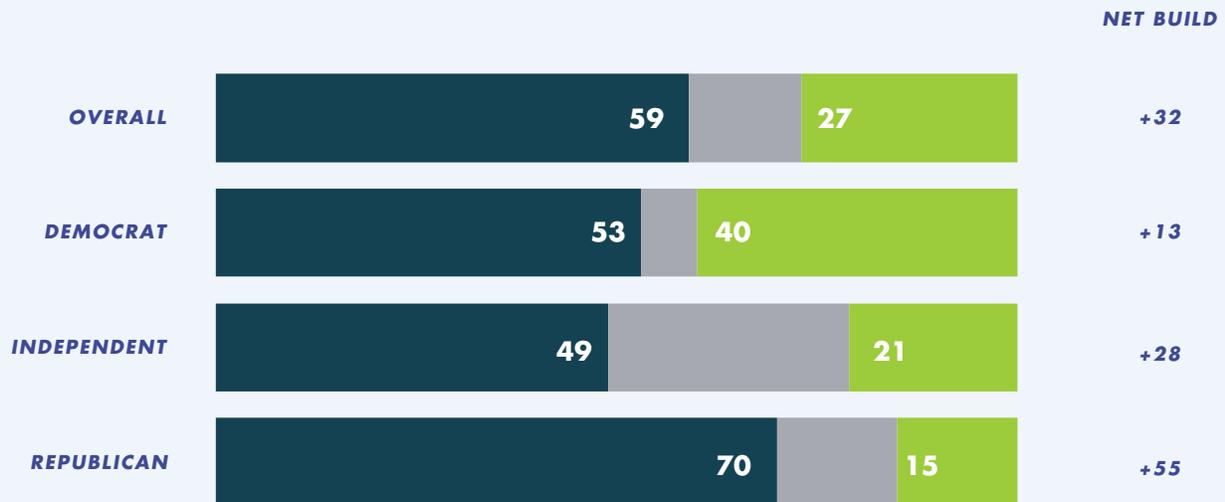

**VOTERS WANT TARGETED, CAREFUL FIXES – ESPECIALLY COMING OUT OF THE COVID-19 PANDEMIC – NOT A GOVERNMENT-RUN SYSTEM.**

Most agree we should be cautious making changes as we come out of the COVID-19 pandemic (71% agree), and they are looking to Congress for targeted fixes that build on the current system (59%) rather than fundamentally transforming it (27%). A majority of voters (60%) want to see at least some government involvement in providing coverage, but just 13% of voters overall, and 20% of Democrats, want a fully government-run system.

**THINKING ABOUT CHANGES CONGRESS COULD MAKE TO THE HEALTH CARE SYSTEM, WHICH IS CLOSER TO YOUR VIEW?**

Congress should focus more on building upon the current system by making specific fixes, such as reducing out-of-pocket costs
  Don't know
  Congress should focus more on fundamentally transforming the health care system

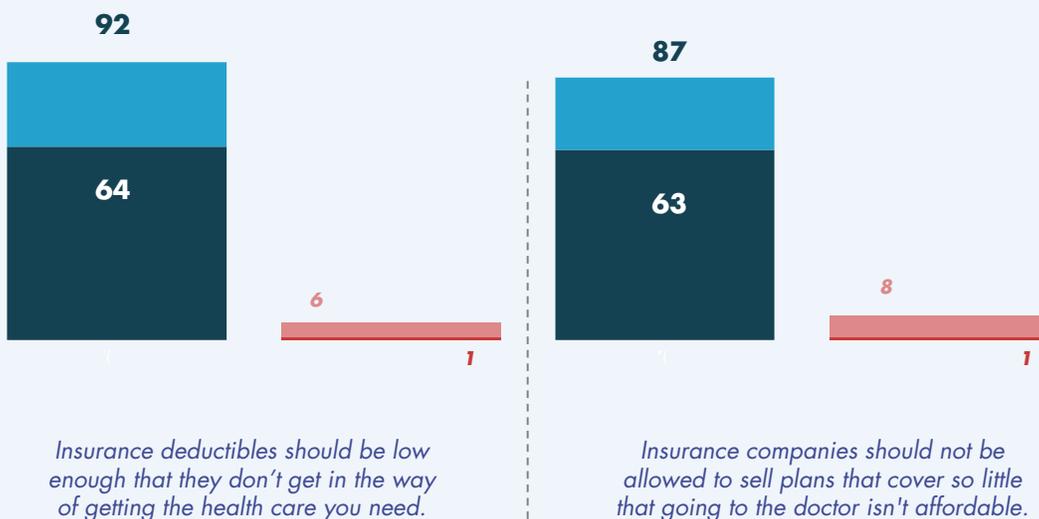

## INSTEAD, LEGISLATION THAT ALIGNS WITH THEIR PRIORITIES WOULD:

- Make sure insurance deductibles are low enough that they don't get in the way of getting quality care (92% agree with this).
- Prevent insurance companies from selling plans that cover so little that it isn't affordable to get care (87% agree with this).
- Make it easier to see a doctor (56% think Nevada has too few doctors).
